

Bloodhound Missile Preservation Group

A group dedicated to the preservation and restoration of Bloodhound SAGW equipment.

SAGW—Surface to Air Guided Weapon

Our aim is to support the preservation of Bloodhound Missiles, Launchers, Radar, Launch Control Post and Ancillary Equipment.

The last RAF Bloodhound Squadron disbanded in 1991 at the end of the Cold War and much of what survives is in urgent need of restoration.

By joining the Bloodhound Missile Preservation Group you will be part of a team active in supporting the remaining Bloodhound SAGW equipment.

Membership is open to all and anyone with an interest or experience in the Bloodhound SAGW can join.

Your help is needed now
